

# BULK PRODUCTS TRANSLOADING SERVICES

Raritan Central Railway • Pennsylvania & Southern Railway • Iowa & Middletown Railway • Wolf Creek Railroad

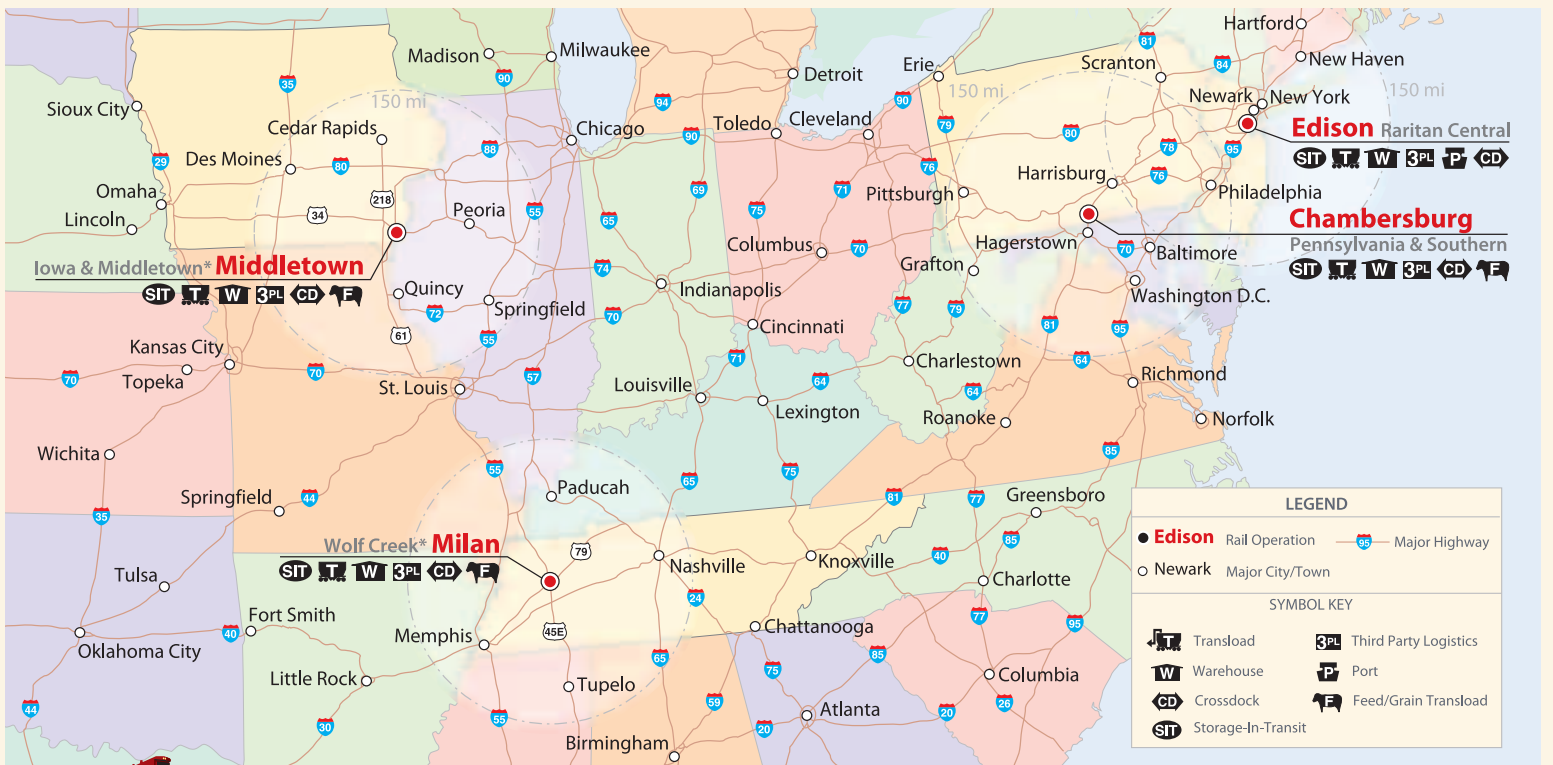

## COMPREHENSIVE SERVICES *at four strategic Northeast and Midwest locations*

Liquid, dry, perishable, or resin, the Raritan Central Railway (NJ), Pennsylvania & Southern Railway (PA), Iowa and Middletown Railway (IA)\*, and Wolf Creek Railroad (TN)\* have the carspots, services, and logistical partners that can safely and efficiently transload all of your bulk product shipments. From individual carloads to unit trains, our operations will place your product closer to where it needs to be.

The four railroads are ideally positioned in the Northeast and Midwest United States. The Raritan Central operates within the 2,350-acre Raritan Center Business Park located in Edison, New Jersey, only 15 miles outside of Newark. The Pennsylvania & Southern operates within the 1,200-acre Cumberland Valley Business Park in Chambersburg, Pennsylvania. On January 1,

2019 our two new properties will begin operations in the 20,000 +/- acre Milan Commercial Complex in Milan, Tennessee (Wolf Creek Railroad), and the 19,000 +/- Commerce Center of Southeast Iowa in Middletown, Iowa (Iowa & Middletown Railway).

Our railroads have reliable connections to Class 1 rail carriers BNSF, CSX, and Norfolk Southern, allowing shippers to easily and quickly move products throughout the United States, Canada, and Mexico. All locations have excellent access to major interstates and secondary roads, a feature that helps speed shipments to their destination. Seaport/international access is available through the Port of NY/NJ, the Port of Baltimore (MD), and the Port of Burlington (IA).

\*Operations begin January 1, 2019

Rail Enterprise Group Rail Operations - Ideally Positioned To Be Your Complete Shipping Solution For Bulk Products

## Infrastructure & Services

Rail Enterprise Group's four railroads are industry leaders in bulk transloading services. Much of our infrastructure has been modernized to accommodate the specific requirements of our bulk products customers. Our total number of carspots - both

active transloading and storage-in-transit - are unequalled by any other shortline. The Raritan Central has 150 bulk transloading carspots and 150 storage-in-transit carspots. The Pennsylvania & Southern has 100 bulk

transloading carspots and 650 storage-in-transit carspots. Combined, our two operations in Iowa and Tennessee will have over 200 bulk transloading carspots and 7,000 storage-in-transit carspots.

This extensive capacity enables our railways to handle even the largest shipments. Customers who use our transloading and bulk transfer facilities enjoy guaranteed car spots, complete car/inventory tracking, and storage-in-transit

capabilities free for the first thirty days.

In addition to our rail infrastructure, our operations are backed by some of the best 3PL services available in the

country. Rail Enterprise Group locations feature cross docking, warehousing, trucking and distribution services provided by some of the most respected names in the industry. The business parks we serve can also accommodate individual needs for warehouse or manufacturing space, as well as outdoor storage areas.

## Commodities Handled

### PLASTICS & RESINS

- We specialize in plastic transloading and can handle all types of resins and plastics in hopper cars, containers, and FIBCs
- Packaging services from 3PL partner Plastic Express have a transfer rate from railcars of over 55,000 pounds/hour
- Bagging, palletizing, shrink wrap services available
- Separate facilities capable of handling PVC to ensure non-contamination of product
- Transloading and distribution using multiple 3PL partners
- Import/Export services available through the Port of NY&NJ

### FEED & GRAINS

- Commodities handled include animal feed, grains, corn, soybeans, and hay in both hopper cars and boxcars
- Indoor and outdoor transloading operations
- New Jersey features close proximity to New York City markets as well as import/export through the Port of NY&NJ
- Chambersburg is central to the extensive farming regions in Pennsylvania, Maryland, and West Virginia
- Middletown is central to extensive farming regions in Iowa, southern Wisconsin, Illinois, and Missouri.
- Milan reaches Tennessee, western Kentucky, eastern Missouri and Arkansas, southern Illinois, and northern Mississippi and Alabama.

### FOOD GRADE

- Liquid or bulk food-grade products can be handled at our food-grade transloading area.
- Commodities handled include corn syrup, flour, sugar, and more
- 3PL partners have a full range of transloading/ transportation options available.

### OTHER COMMODITIES

- Other commodities we are able to handle include fertilizers, talc, salt, sand and other aggregates, and more
- Transloading areas can be customized to fit individual needs
- 3PL partners available to handle almost every transloading, trucking, packaging, or warehousing requirement.
