

BULK PRODUCTS TRANSLOADING SERVICES

Raritan Central Railway • Pennsylvania & Southern Railway

COMPREHENSIVE SERVICES *at two strategic Northeast locations*

Liquid, dry, perishable, or resin, the Raritan Central Railway (NJ), and Pennsylvania & Southern Railway (PA) have the carspots, services, and logistical partners that can safely and efficiently transload all of your bulk product shipments. The two railroads are ideally positioned in the Northeast United States. From individual carloads to unit trains, our operations will place your product closer to where it needs to be.

The Raritan Central operates within the Raritan Center Business Park and Heller Industrial Park - over 3,050 acres combined - located in Edison, NJ, only 15 miles outside of Newark. The

Pennsylvania & Southern operates within the 1,200-acre Cumberland Valley Business Park in Chambersburg, PA.

Our railroads have reliable connections to Class 1 rail carriers CSX and Norfolk Southern, allowing shippers to easily and quickly move products throughout the United States, Canada, and Mexico. Both locations have excellent access to major interstates and secondary roads, a feature that helps speed shipments to their destination. Seaport/international access is available through the Port of New York & New Jersey and the Port of Baltimore (MD).

Rail Enterprise Group Rail Operations - Ideally Positioned To Be Your Complete Shipping Solution For Bulk Products

Infrastructure & Services

Rail Enterprise Group's four railroads are industry leaders in bulk transloading services. Much of our infrastructure has been modernized to accommodate the specific requirements of our bulk products customers.

Our total number of carspots - both active transloading and storage-in-transit - are unequalled by any other shortline. The Raritan Central has 250 bulk transloading carspots and 150 storage-in-transit carspots. The Pennsylvania & Southern has over 700 carspots for storage-in-transit, car storage, and transloading.

This extensive capacity enables our railways to handle even the largest shipments. Customers who use our transloading and bulk transfer facilities enjoy guaranteed car spots, complete car/inventory tracking, and ample storage-in-transit capabilities.

In addition to our rail infrastructure, our operations are backed by some of the best 3PL services available in the country. Rail Enterprise Group locations feature cross docking, warehousing, trucking and distribution services provided by some of the most

respected names in the industry. The business parks we serve can also accommodate individual needs for warehouse or manufacturing space, as well as outdoor storage areas.

Commodities Handled

PLASTICS & RESINS

- We specialize in plastic transloading and can handle all types of resins and plastics in hopper cars, containers, and FIBC's
- Packaging services from 3PL partner Plastic Express have a transfer rate from railcars of over 55,000 pounds/hour
- Bagging, palletizing, shrink wrap services available
- Separate facilities capable of handling PVC to ensure non-contamination of product
- Transloading and distribution using multiple 3PL partners
- Import/Export services available through the Port of NY&NJ

FEED & GRAINS

- Commodities handled include animal feed, grains, corn, soybeans, and hay in both hopper cars and boxcars
- Indoor and outdoor transloading operations
- New Jersey features close proximity to New York City markets as well as import/export through the Port of NY&NJ
- Chambersburg is central to the extensive farming regions in Pennsylvania, Maryland, and West Virginia

FOOD GRADE

- Liquid or bulk food-grade products can be handled at our food-grade transloading area.
- Commodities handled include corn syrup, flour, sugar, and more
- 3PL partners have a full range of transloading/transportation options available.

OTHER COMMODITIES

- Other commodities we are able to handle include fertilizers, talc, salt, sand and other aggregates, and more
- Transloading areas can be customized to fit individual needs
- 3PL partners available to handle almost every transloading, trucking, packaging, or warehousing requirement.
