

STEEL AND METALS RELOAD SERVICES

AT THE RARITAN CENTRAL RELOAD ON MEADOW ROAD, EDISON, NJ

The Raritan Central Railway is pleased to offer steel and metals reloading services from our new reload facility off Meadow Road in Edison, New Jersey. Our partner Yannuzzi Materials operates the facility. It is adjacent to their 13-acre operation. They handle everything from steel (rebar, plate, coils, I-beams), scrap metal, bulk aggregates, to construction and landscaping waste recycling. Currently, the facility is receiving rebar and shipping scrap metal utilizing the same railcars for both the inbound and outbound shipments. Yannuzzi's on-site heavy equipment can easily handle large, heavy shipments. Raritan Central serves the facility five days/week and can offer high-volume throughput with multiple switches per day if needed.

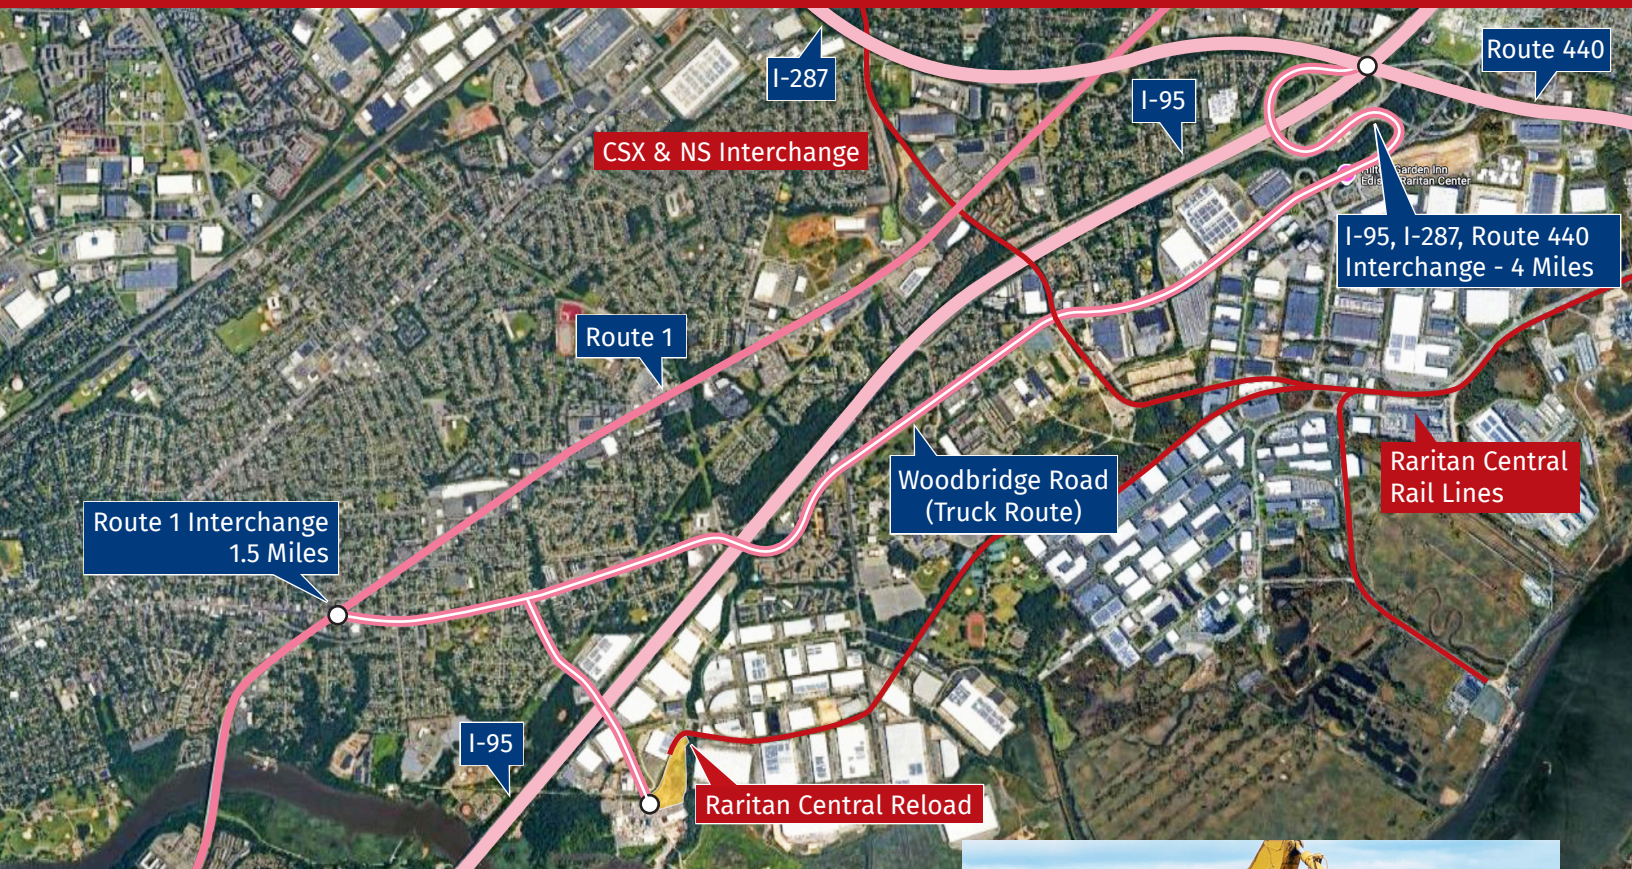

FACILITY FEATURES

- 5 rail car spots
- Able to handle high and low-sided gondolas, bulkhead and regular flat cars.
- Daily and on-demand switching
- CSX and NS connections
- Ship or receive rebar, plate steel, I-beams, coils, scrap steel, aggregates, and more.
- Lay-down space
- Heavy lift equipment for loading/unloading of railcars
- Easy and quick highway access: 4 miles to I-95, I-287, Route 440 and 1.5 miles to Route 1

HIGHWAY & RAIL CONNECTIONS

The Raritan Central Steel & Metals reload has excellent highway and rail connectivity. It is only 4 miles from I-95, I-287, and Route 440, and 1.4 miles from Route 1 via Woodbridge Avenue. The park is within one day's trucking time (or less) from all major metropolitan areas in the Northeast and is only 15 miles from the Port of New York & New Jersey.

- New York City: 30 miles
- Trenton: 42 miles
- Baltimore: 163 miles
- Hartford: 145 miles
- Newark: 22 miles
- Philadelphia: 70 miles
- Washington D.C.: 201 miles
- Albany: 172 miles

Raritan Central's two Class 1 rail connections: CSX and Norfolk Southern provide daily interchange and can route railcars throughout the United States, Canada, and Mexico.

The Raritan Central Railway looks forward to reloading your steel and metals shipments in the New Jersey and New York City region. For more information on our facility feel free to contact Eyal Shapira, President & CEO:
